

nai

Albariño

Nai is our tribute to both, the origin of the Albariño and the contemporary women. This 100% Albariño wine from the “Salnés Valley” is made considering the taste of the new palates. The Galician poets and artists of the first half of the twentieth century refers to “nai” as a tribute to the working women who guaranteed the independence of the family and the Galician society. One of the most significant examples is the sculpture of “Naiciña” by Francisco Asorei. Those poets symbolized with “nai” their hallmark with their land, Galicia.
