

## SANROME

### Terre Alfieri DOCG Arneis 2023

**94** pts. 2022 Vintage  
by Luca Maroni

Cascina Vèngore is a dream started from 3 indigenous varieties with infinite potential: Nebbiolo, Barbera, and Arneis. The vinification practices follow the Piedmontese tradition (steel, amphora, and large wood barrels), with minimal intervention. It is the project of Lucrezia Povero, a young vigneron, who experiences day after day, together with her sister Maurizia and Letizia, new expressions of the land in which she was born and raised. And where, after discovering the world, she chose to live. Cascina Vèngore is a natural amphitheater in the heart of Terre Alfieri (Piedmonte), a small DOCG representing the ideal synthesis of Langhe, Roero, and Monferrato. A realm of biodiversity with 100% organic cultivation, which embraces 26 hectares in one single plot around a traditional Piedmontese farmhouse.

**Tasting notes:** Brilliant yellow color, with fresh, mineral aromas evoking notes of white peach, citrus, and grapefruit. A subtle savoriness on the palate and a hint of almond in the finish.

**Winemaker:** Francesco Monticone

**Appellation:** DOCG Terre Alfieri

**Grapes:** 100% Arneis

**Soil:** Sandy and calcareous **Elevation:** 886 ft

**Vineyard practice:** sustainable and biodynamic practices, grass cover cropping, minimum tillage, fertilization with organic and green manure

**Vine Age:** 11 years **Harvest Dates:** first ten days of September

**Fermentation:** 12-15 days in temperature-controlled vats at 15°C

**Ageing:** 4 months, sur lie, in stainless steel tanks

**Certification:** Certified Organic

**Ph:** 3.2 **RS:** 2.4 grams per liter **Alc:** 13.5%

**DOCG Terre Alfieri:** A wine region in Piedmont, Italy. The name “Terre Alfieri” refers to the noble Alfieri family that historically held influence in the area, with their 17<sup>th</sup>-century castle located in the town of Magliano Alfieri in Cuneo. The area’s unique characteristics include steep hills with soils composed of marine sedimentary deposits from the Pliocene era. The region’s elevation ranges from 430ft to 1,150ft.
